- Mountain: Bhagirathi II 6.512m.
- Team: Iker and Eneko Pou (Climbers), Jordi Canyi (Camera).
- Season: May of 2.014

The weather was extremely bad throughout the expedition, with heavy snowfall, avalanches, and extreme cold. All the mountains in the region were very unsafe. I could have lost some gear in the ABC due to a massive avalanche. Our cameraman's tripod included :)
